PARTS PRICE LIST

for the

DAYTON MOTOR BICYCLE

1916 Models

THE purpose of this Parts Price List is to aid you in selecting and describing the right repair parts for the Dayton Motor Bicycle and to eliminate as far as possible any errors in ordering the parts you require. It is with the intention of giving you the best service which we are capable of rendering that this Parts Price List is issued. If you will observe carefully the following instructions on each and every one of your orders it will be to our mutual advantage.

HOW TO ORDER

1. State both number and name of the part as it is listed in this Parts Price List.
2. Give your machine number, as cut on the seat post cluster, and the motor number, as cut on the crank case at the base of the cylinder.
3. Enclose remittance with order, using Post Office or Express Money Orders, and include enough to pay postage if parts are to be sent to you by parcel post. Any balance will be refunded. No order filled for less than ten cents.

HOW TO RETURN PARTS

1. Put your name and address plainly and securely on all parts returned to us for repair or replacement.
2. Write us a letter at the same time parts are returned explaining fully the nature of the repairs or replacements you want made.
3. Prepay transportation charges on all parts returned for repair or replacement. Otherwise they will not be accepted.

EXPLANATION

1. We do not open accounts for repair parts—therefore your order should be accompanied by remittance in full.
2. If the entire machine is returned, detach from it all accessories such as saddle, horn, lamp, etc. Otherwise we will not be responsible for their safe return.
3. When assembled parts are returned to have replacements installed a charge will be made covering the actual labor involved.
4. "No Charge" replacements are made only of parts which our examination shows to be actually defective in material or workmanship and do not apply to parts requiring renewal on account of ordinary wear and tear, abuse or neglect. Parts which are replaced without charge will in all cases be shipped by express, collect, regardless of weight, unless postage has been sent.
5. We do not guarantee tires, magneto, chains or other parts not manufactured by ourselves as these are guaranteed by their respective manufacturers, and should they develop defects, should be sent direct to them.

Prices subject to change without notice.
