FINEST BICYCLES EVER OFFERED
UNDER THIS FAMOUS NAME!**

THE HUFFMAN MANUFACTURING COMPANY, DAYTON, OHIO

NATIONAL BICYCLES FOR 1937

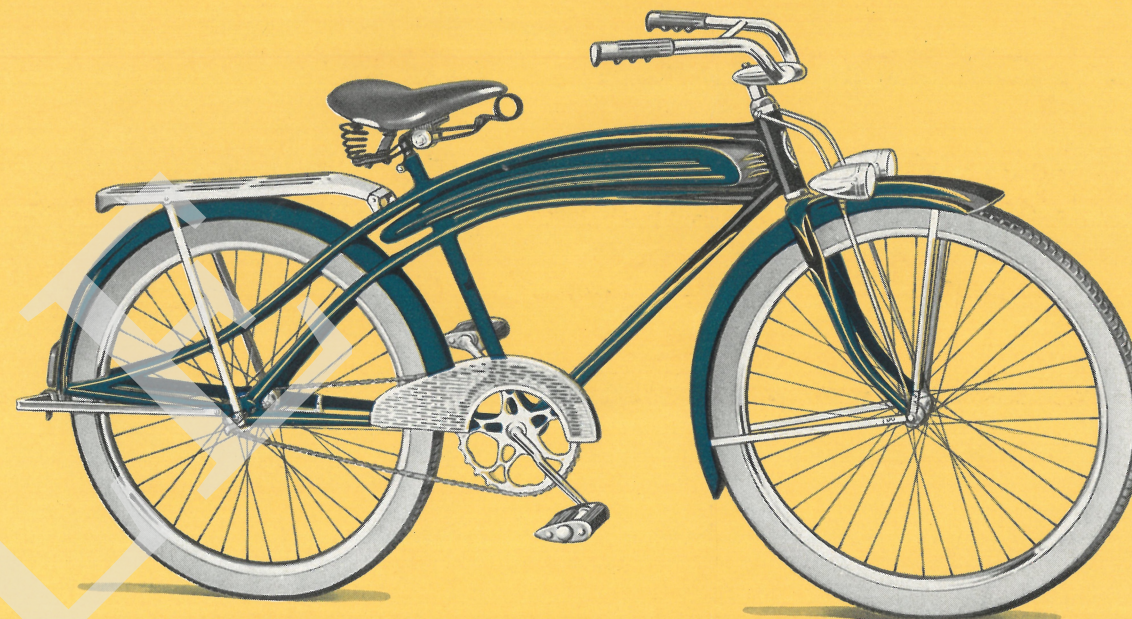

*A Model for Every Style Demand
--- Built to Last and Priced to Sell!*

● For 1937 National presents a complete line of bicycles that give you an outstanding model for every style demand. Sixteen sensational models that combine brilliant styling, advanced engineering and all latest equipment features!

This year's Nationals bring you the widest range of models ever offered in this famous bicycle line. There are three striking, basic frame designs, and a wide range of beautiful color combinations! Unexcelled in construction, materials, and workmanship, these bicycles bring you the quality for which National has long been famous! In addition, National gives you sales protection by restricting distribution in your territory!

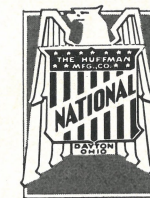

Ample stocks and production facilities assure you prompt deliveries throughout the year. Although a leader in style, construction, and equipment, the National line is priced to sell. It's *the* line you can count on to deliver outstanding value and satisfaction to your customers.

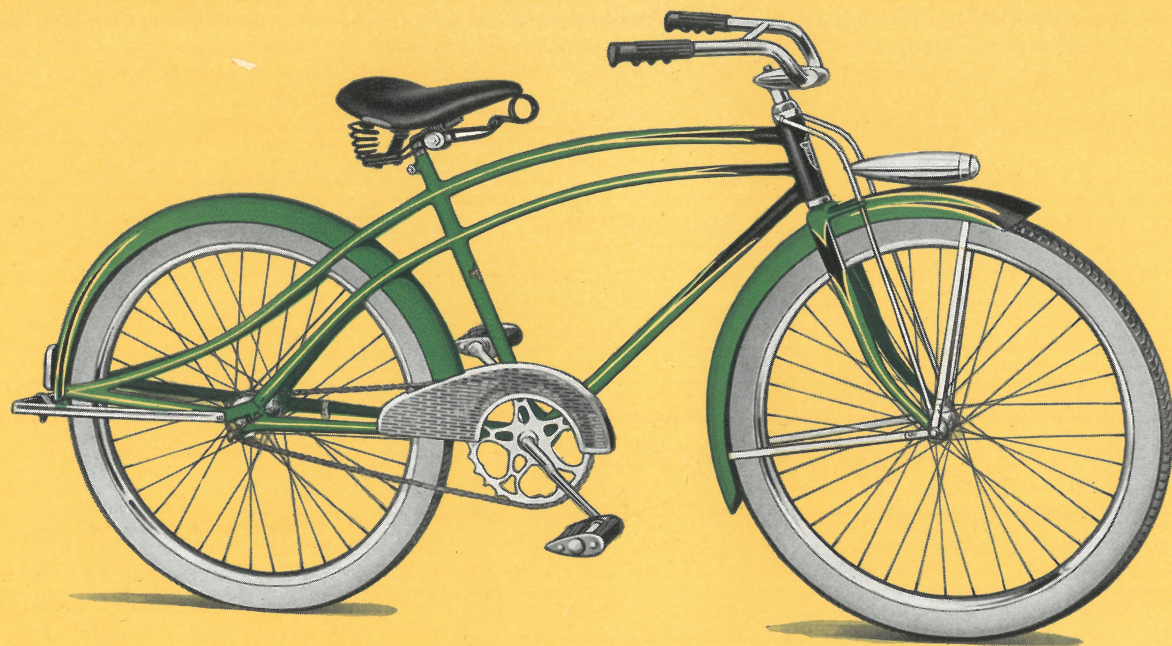

THE HUFFMAN MANUFACTURING COMPANY, DAYTON, OHIO

NATIONAL BICYCLES FOR 1937

Biggest Bicycle Value of the Year With All These Amazing Features!

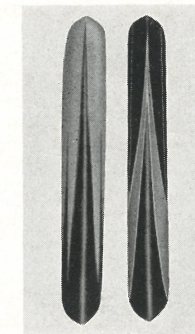

1 Complete Streamlining

National Bicycles for 1937 offer beautiful, modern streamlining throughout, in a choice of two different, distinctive styles! The famous, exclusive Super-Streamline frame sweeps from

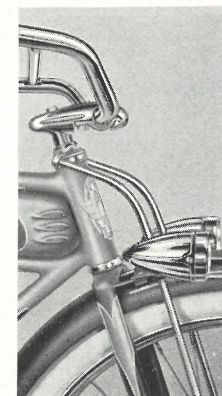

Beautiful, new Zephyr-Tank. Note built-in Horn Button.

front to rear in long, graceful curves. And the new streamlined motor-bike and camelback frames present the greatest beauty ever offered in frames of that type. The new Zephyr-Tank,

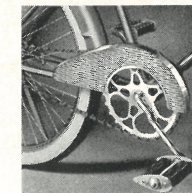

LEFT: Deep Gothic Crown Enameled Fender. RIGHT: Shallow Gothic Crown Enameled Fender. Finished with smart, modern designs.

with its dashing speedlines, is unequalled in smartness and style. Distinctive, modern appearance is further enhanced by the high-crowned, Gothic contour of the fenders. The trim,

Shown here are the handsome Twinlites, and the new Streamlined Handlebar Stem, Truss Rods, and Fork-Crown.

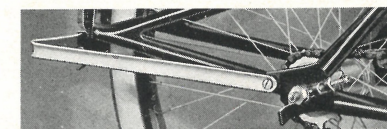

Distinctive, new, chromium-plated National Chain Guard. Note, also, modern, streamlined pedals.

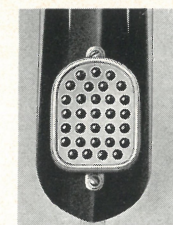

chromium-plated chain guard, with its narrow, horizontal perforations, is another distinctive feature that adds style and beauty. Even the handlebar stem, pedals, and fork-crown have been streamlined to give that final touch that makes National the year's most beautiful, completely streamlined bicycle line!

2 New, Modern Equipment

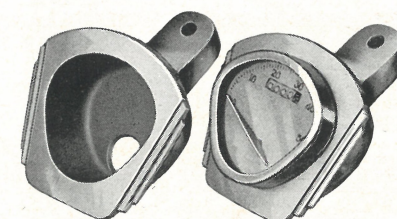

All of the best and newest equipment features are available in the National line—Twinlites, Hornlites, Torpedolites, Electric Horn built into tank, new Multi-Power Rear Reflectors, and Streamlined Luggage Carrier. New-type stand attachment is free of

National Stand Attachment free from rear axle.

New-type Multi-Power Reflector—the safest warning signal made.

bicycle, and affords much needed protection to the speedometer. (See list of "extras" on price sheet.)

3 Strongest Construction

In building this outstanding line for 1937, the famous National Airplane-Welded Construction has been employed. This is the same method used in modern airplane construction, where greatest strength with lightest weight really count. Every bicycle joint in the National line will stand over fifty times the strain it is called upon to face in actual use.

Showing "Airplane Welds."

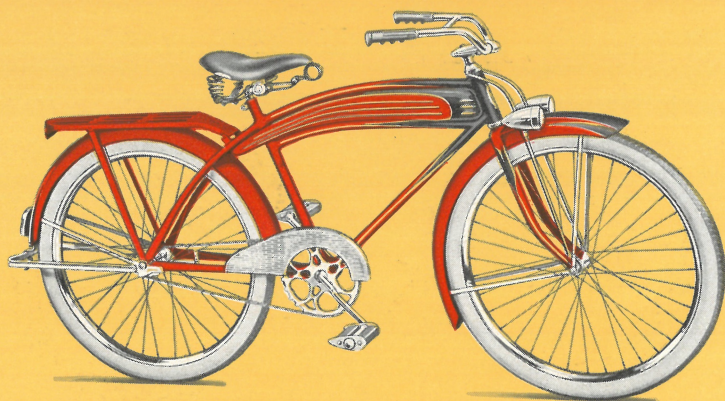

Every National Bicycle is made of the best in materials, with the finest, most careful workmanship. Each one is an outstanding value in its price class.

4 Wide Color Range

National Bicycles are available in the following color combinations:

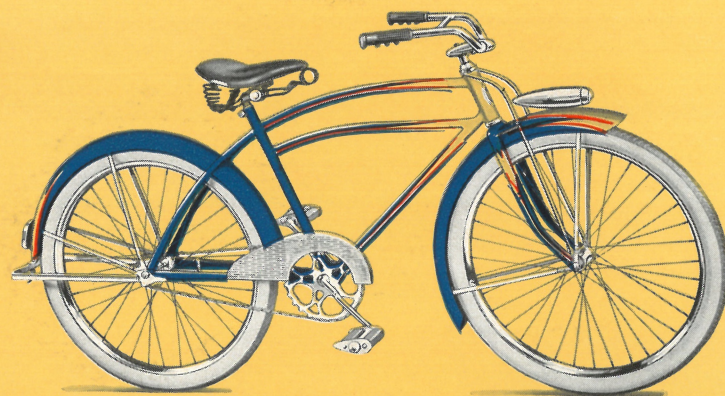

Body Color	Choice of Head Color
National Blue	White; Red; Cream; or Black
Red	National Blue; Black; White; or Cream
Iridescent Blue	Red, or Cream
Spruce Green	Black, or Cream
Black	Red; White; or Cream

Striping on any of the above combinations will be applied in a harmonizing color, as worked out by National designers.
